Projects

E-Commerce

An e-commerce platform built with React.js, Context API, Redux, Tailwind CSS, and Firebase, offering seamless user authentication, dynamic product listing, and secure cart management. Features include responsive design, real-time updates, and efficient state handling for an optimal shopping experience.

Ordinary Task

It uses **Vanilla JavaScript** for the frontend and **Firebase Firestore** as the backend to store tasks.

WhatsApp-like UI

A WhatsApp-like UI in React Native with chat screens, message bubbles, contact lists, and navigation for a mobile messaging app interface."

TODO LIST

A Todo app built with Next.js, featuring task creation, editing, deletion, and persistent storage with local storage or a backend API.
